HORANA MINERALS (PVT) LTD.

Polymer Tile Grout is manufactured with premium sanded Portland cement from Denmark and other ingredients from world renowned suppliers to maintain constant quality of this product. Product is ideal for purpose of filling joints between gaps of ceramic, porcelain and other natural stone tiles where joint width is 1/8" to 1/2".

Product is developed with combination of polymer base (Rubber) Adhesive in 250ml liquid form to be mixed with 1 kg of tile grout powder pack where extreme wet and water resist condition demands.

What is Polymer Tile Grout

Polymer Tile Grout is a product that we have developed with combination of polymer based (rubber) adhesive. Since it's not possible to give polymer adhesive in powder form we have introduced Snowplow Polymer Adhesive in liquid form which could be used to mix the grout powder.

Advantages

- ❖ Greatly improves flexibility, Adhesion and water resistance
- ❖ Resists Heat, dust and other contaminants.
- ❖ Very flexible Strength.
- ❖ Recommended for extreme wet conditions,
- ❖ No fungus and fading colours.

Mixing

Shake the bottle of adhesive well. Add 250 ml of polymer adhesive with 1kg of Snowplow Polymer Grout Add 2 part of water to get a smooth and uniform paste. You may add or reduced level of water according to your requirement. Utilize the paste within 30 minutes of mixing,

Do not reuse excess grout paste with new paste.

Application

- ❖ Joints between tiles must be free from dust and all contamination Make sure area is dry and clean prior to grouting.
- ❖ Filing the joints should be carried out only after 24 hours after tiles are laid.
- ❖ Fill the mixed grout paste between tiles firmly by using proper tool without any brakes and gaps. Let the grout settle for 1/2 hour and remove the excess grout on the edges with a damp cloth or sponge.

Specification

- ❖ Colour over 50 regular shades (For bigger quantities -colourscan be made to) customer's choice
- ❖ Setting time 24 hours.
- ❖ pot life 30 minutes.
- ❖ Application any kind if interior and exterior
installation. Especially for extreme wet condition like swimming pools/bathrooms.
- ❖ Shelf life 12 months between temperatures of 10c - 40c

Packing

- ❖ Grout - 1 kg packed & 25 kg packed
- ❖ Adhesive - 250 ml bottles

Warranty

This product is guaranteed for 5 years against colour fading and cracks. The product is resisted against heat. Fire and fungus free. (Condition's apply

මූලික කරුණු

ගොඩනැගිලි තුළ පමණක් භාවිතය සඳහා අනුමත කෙරෙන අතර පරතරය 1.5 mm (1/16") to 3mm (1/8") වන ලෙස ඇතිරූ ඕනෑම ටයිල් වර්ගයක් ග්‍රවුට් කිරීමට සුදුසුය.

ගති ලක්ෂණ

- ❖ නඩත්තුවට පහසු සුමුදු ශක්තිමත් මතුපිට
- ❖ අවිට මරොන්තු දේ
- ❖ මතුපිට කුණු පැල්ලම් නොරැදෙන ලෙස වැඩිදියුණු කොට ඇත.
- ❖ ජලය සමඟ පහසුවෙන් මිශ්‍රකර කෙලින්ම භාවිතයට ගත හැක.

අමුද්‍රව්‍ය

ඉතා සියුම්ව අඹරන ලද ෆිලර් වර්ග, වර්ණක, වැඩිදියුණු කල පොලිමර් සහ පිරිසිදු පෝට්ලන්ඩ් සිමෙන්ති සමඟ එක්වූ සංයෝගයකි. ගෙවියාමට මරොන්තු දෙන පරිදි ශක්තිමත්ව නිපදවා ඇත. අමතර ද්‍රව්‍ය කිසිවක් නොමැතිව පහසුවෙන් ජලය සමඟ මිශ්‍රවන ලෙසින් වැඩිදියුණු කොට ඇත.

තාක්ෂණික දත්ත

Exceeds ANSIA118.6 & A118.7 requirements

ගතිගුණ

ජලය සමඟ මිශ්‍ර කල පසු පැයකට අඩු කාලයකදී භාවිතා කරන්න. පැය 12 - 24 අතර මූලික සවිච්ච සිදුවන අතර පසු 24 ට අධික කාලයක් බවට පැවතීමට හැකි නොවේ.
